

Windchill Assignment.2

1. Create document objects. add primary and secondary content

The screenshot shows the 'New Document' dialog box in Windchill, specifically the 'Set Attributes' tab. The 'Product' is set to 'ProductView Demo' and the 'Type' is 'Document'. The 'Template' is set to 'Select a Template --'. The 'Primary Content Source' is 'Local File' with a file named 'Industry.csv' selected. The 'Attributes' section includes 'Number' (Generated), 'Name' (Industry), 'Description' (empty), 'Location' (Selected Folder: ProductView Demo), 'Life Cycle Template' (Generated), and 'Team Template' (Generated). There is a checkbox for 'Keep checked out after checkin' which is unchecked. At the bottom, there are 'Back', 'Next', and 'Finish' buttons.
