4) Login with _orgadmin, make sure that user can access Organization link

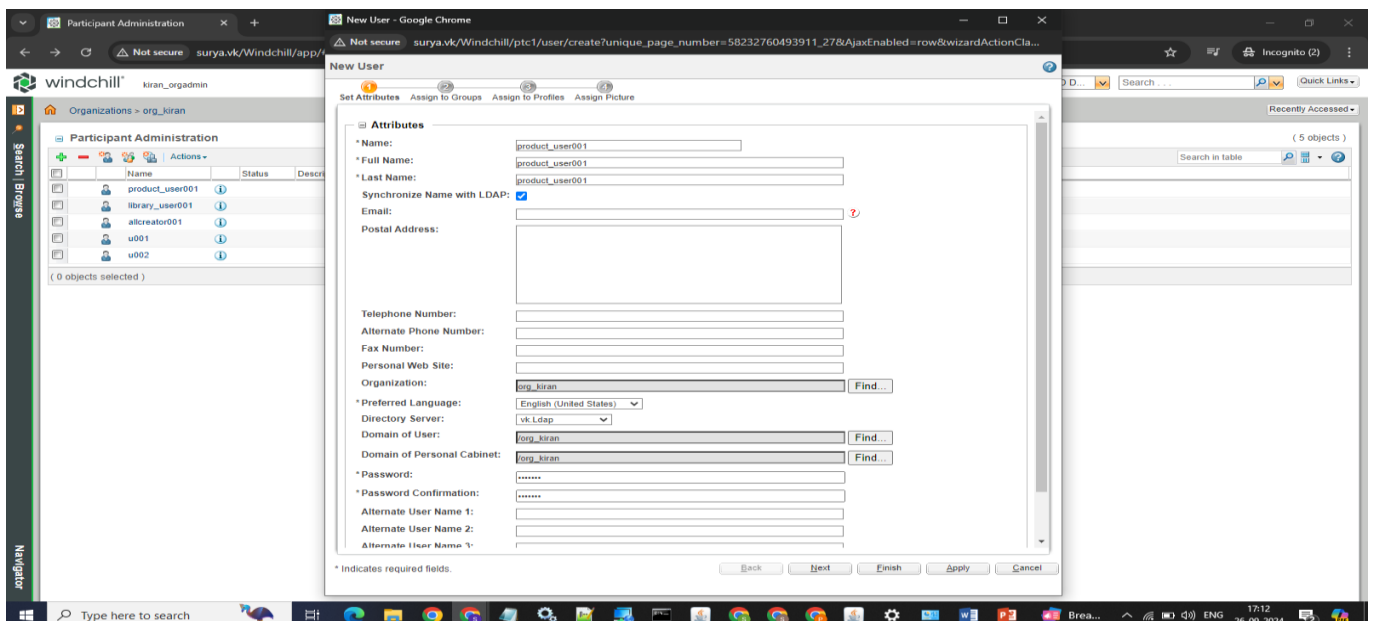

Step1: login with other browser localhost/Windchill→ username: kiran_orgadmin with password.

Step2: Check user can access Organization link or not.

5) Create three users in Org_, name it: product_user001, library_user001, allcreator001

Step1: Under org_kiran -> create three users 1. product_user001 and fill required fields and under organization: org_kiran (by default) -> Apply

Step2: Likewise create another user (2. library_user001) fill required fields and under organization: org_kiran (by default) ->Apply

The screenshot shows the Windchill Participant Administration interface. On the left, a table lists existing users: product_user001, library_user001, allcreator001, u001, and u002. The 'New User' dialog box is open, displaying the 'Attributes' tab. The form is filled with the following information:

- Name: library_user001
- Full Name: library_user001
- Last Name: library_user001
- Synchronize Name with LDAP: ☒
- Email: (empty)
- Postal Address: (empty)
- Telephone Number: (empty)
- Alternate Phone Number: (empty)
- Fax Number: (empty)
- Personal Web Site: (empty)
- Organization: org_kiran (with a 'Find...' button)
- Preferred Language: English (United States)
- Directory Server: vk.Ldap
- Domain of User: org_kiran (with a 'Find...' button)
- Domain of Personal Cabinet: org_kiran (with a 'Find...' button)
- Password: (masked with asterisks)
- Password Confirmation: (masked with asterisks)
- Alternate User Name 1: (empty)
- Alternate User Name 2: (empty)
- Alternate User Name 3: (empty)

At the bottom of the dialog, there are buttons for 'Back', 'Next', 'Finish', 'Apply', and 'Cancel'. A note at the bottom left states '* Indicates required fields.'

Step3: same way creates another user(allcreator001) fill required fields and under organization: org_kiran (by default) ->Apply

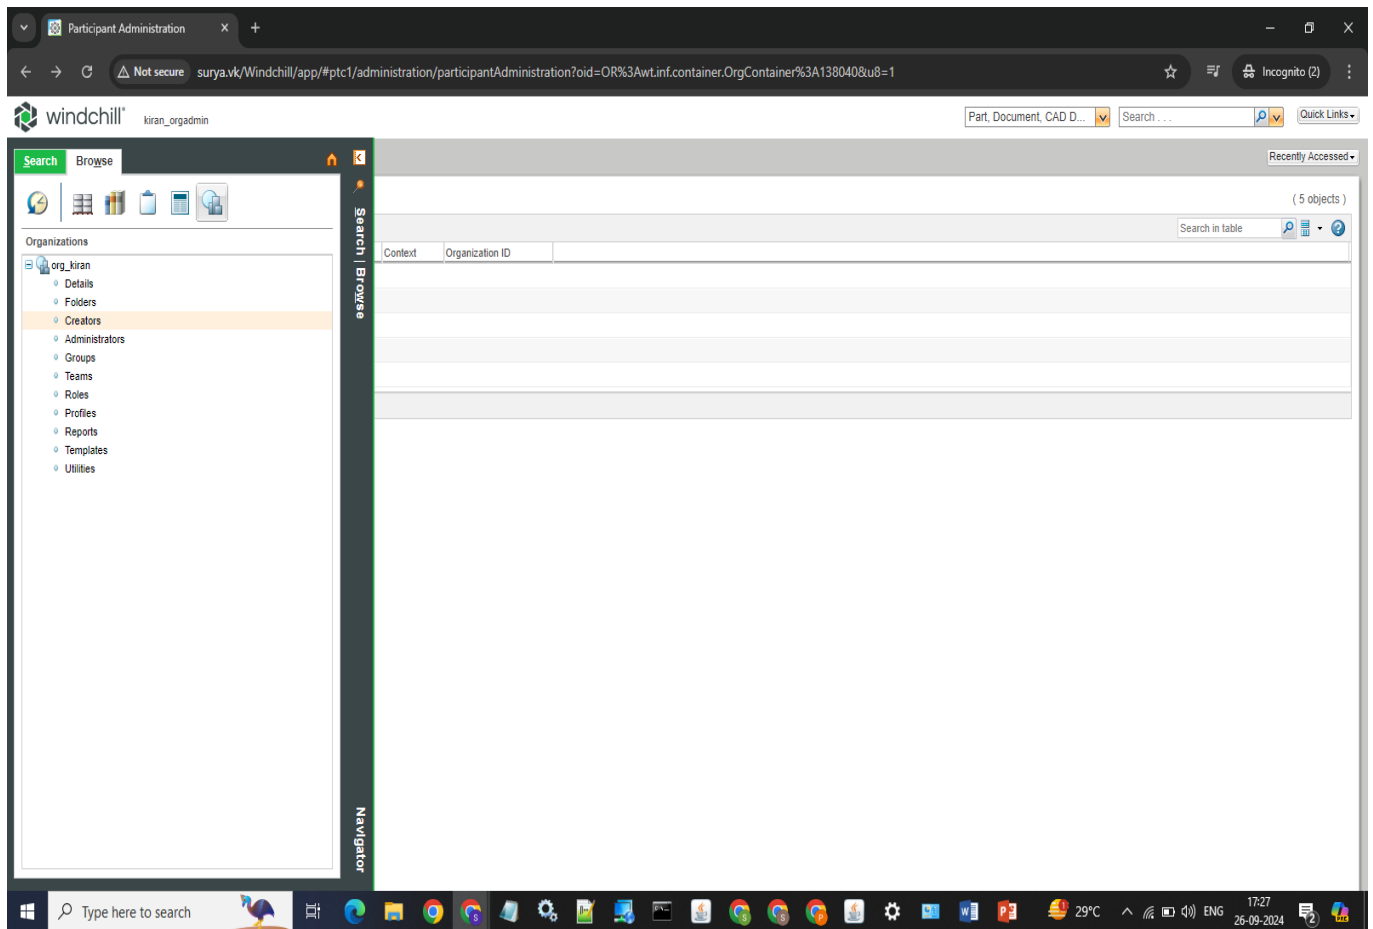

The screenshot shows the Windchill Participant Administration interface. On the left, a table lists existing users: product_user001, library_user001, allcreator001, u001, and u002. The 'New User' dialog box is open, displaying the 'Attributes' tab. The form is filled with the following information:

- Name: allcreator001
- Full Name: allcreator001
- Last Name: allcreator001
- Synchronize Name with LDAP: ☒
- Email: (empty)
- Postal Address: (empty)
- Telephone Number: (empty)
- Alternate Phone Number: (empty)
- Fax Number: (empty)
- Personal Web Site: (empty)
- Organization: org_kiran (with a 'Find...' button)
- Preferred Language: English (United States)
- Directory Server: vk.Ldap
- Domain of User: org_kiran (with a 'Find...' button)
- Domain of Personal Cabinet: org_kiran (with a 'Find...' button)
- Password: (masked with asterisks)
- Password Confirmation: (masked with asterisks)
- Alternate User Name 1: (empty)
- Alternate User Name 2: (empty)
- Alternate User Name 3: (empty)

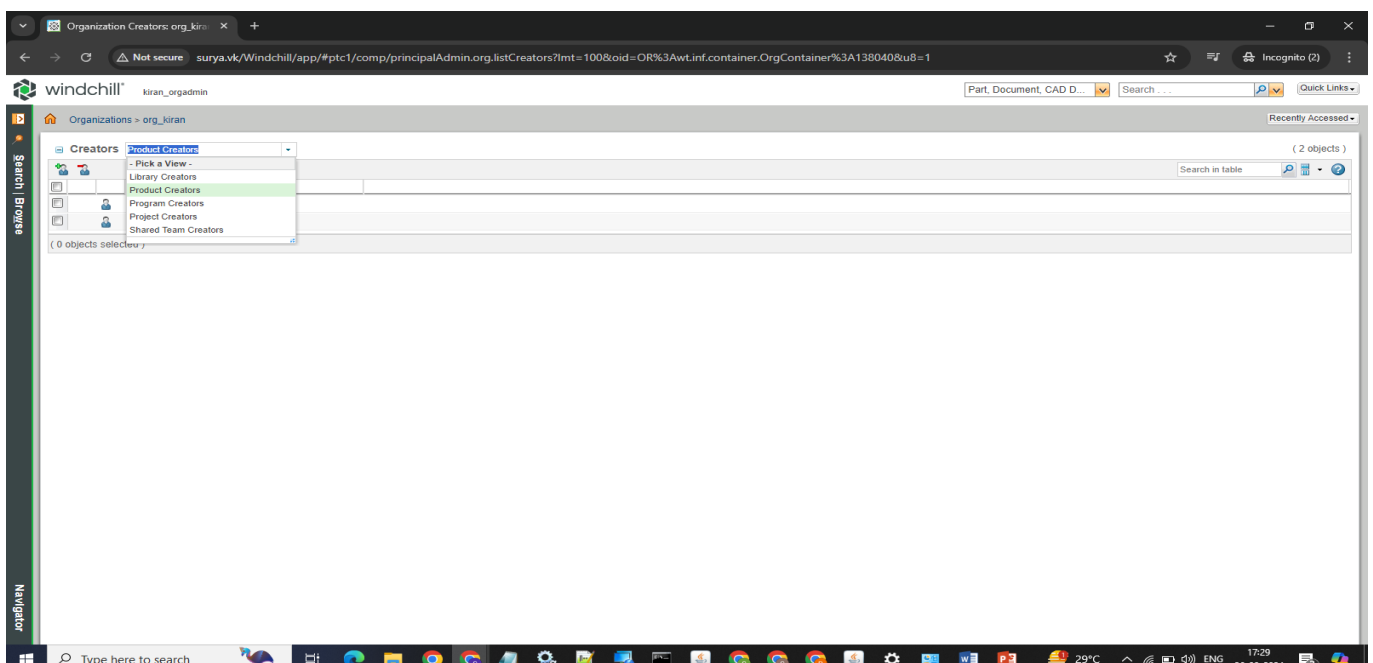

At the bottom of the dialog, there are buttons for 'Back', 'Next', 'Finish', 'Apply', and 'Cancel'. A note at the bottom left states '* Indicates required fields.'

The screenshot shows the Windchill web interface with the 'Product Creators' table. A modal dialog titled 'Add Users to the Creators Group' is open. The dialog has search fields for 'User', 'Full Name', 'User Name', 'Email', and 'Organization Name'. Below these are 'Search' and 'Clear' buttons. The 'Search Results' list on the left includes: 'allcreator001 (allcreator001: org_kiran)', 'kiran_organadmin (kiran_organadmin: org_kiran)', 'library_user001 (library_user001: org_kiran)', 'product_user001 (product_user001: org_kiran)', 'u001 (u001: org_kiran)', and 'u002 (u002: org_kiran)'. The 'Participant List' on the right shows 'product_user001 (product_user001: org_kiran)' has been added. At the bottom of the dialog are 'OK', 'Apply', and 'Cancel' buttons. The 'Apply' button is highlighted.

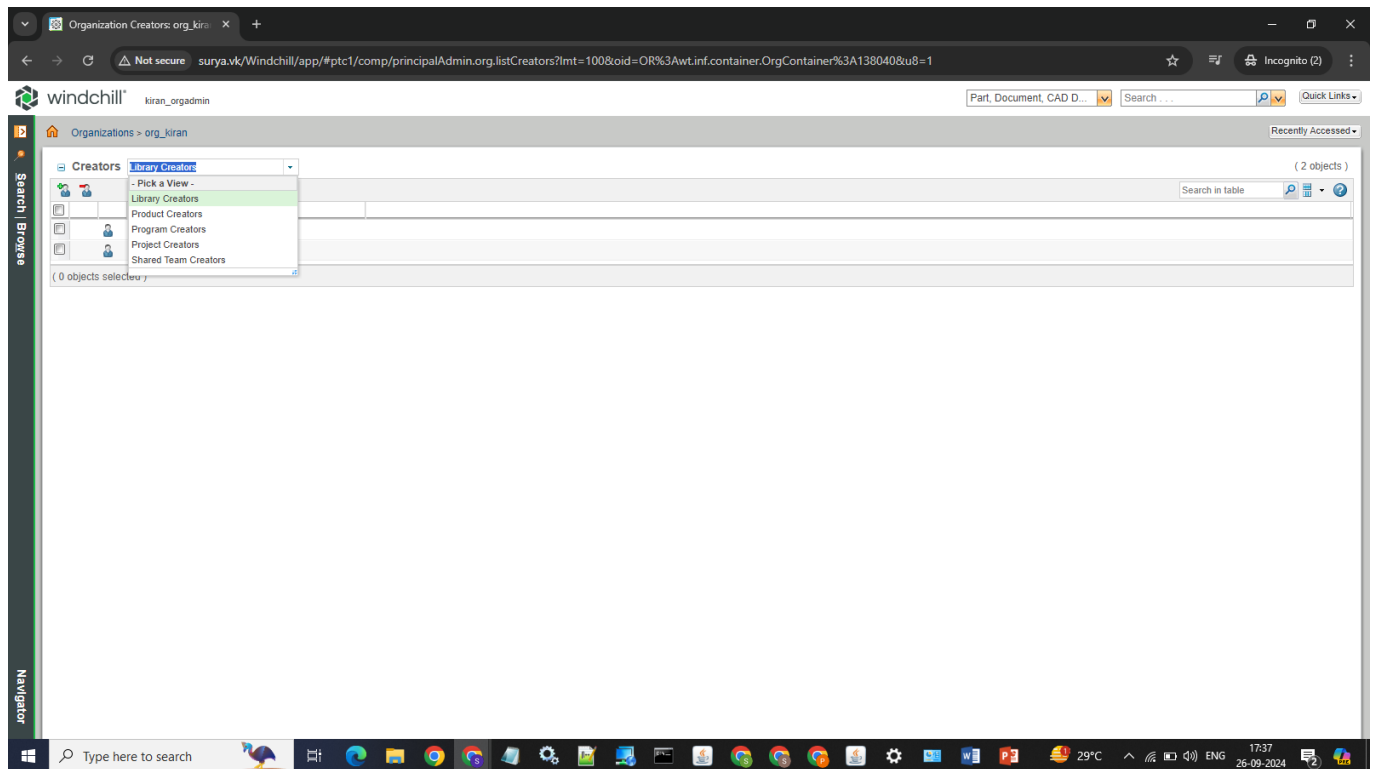

Step4: Likewise add user (allcreator001) to the product creator->Apply

The screenshot shows the Windchill web interface with the 'Product Creators' table. A modal dialog titled 'Add Users to the Creators Group' is open. The dialog has search fields for 'User', 'Full Name', 'User Name', 'Email', and 'Organization Name'. Below these are 'Search' and 'Clear' buttons. The 'Search Results' list on the left includes: 'allcreator001 (allcreator001: org_kiran)', 'kiran_organadmin (kiran_organadmin: org_kiran)', 'library_user001 (library_user001: org_kiran)', 'product_user001 (product_user001: org_kiran)', 'u001 (u001: org_kiran)', and 'u002 (u002: org_kiran)'. The 'Participant List' on the right shows 'allcreator001 (allcreator001: org_kiran)' has been added. At the bottom of the dialog are 'OK', 'Apply', and 'Cancel' buttons. The 'Apply' button is highlighted.

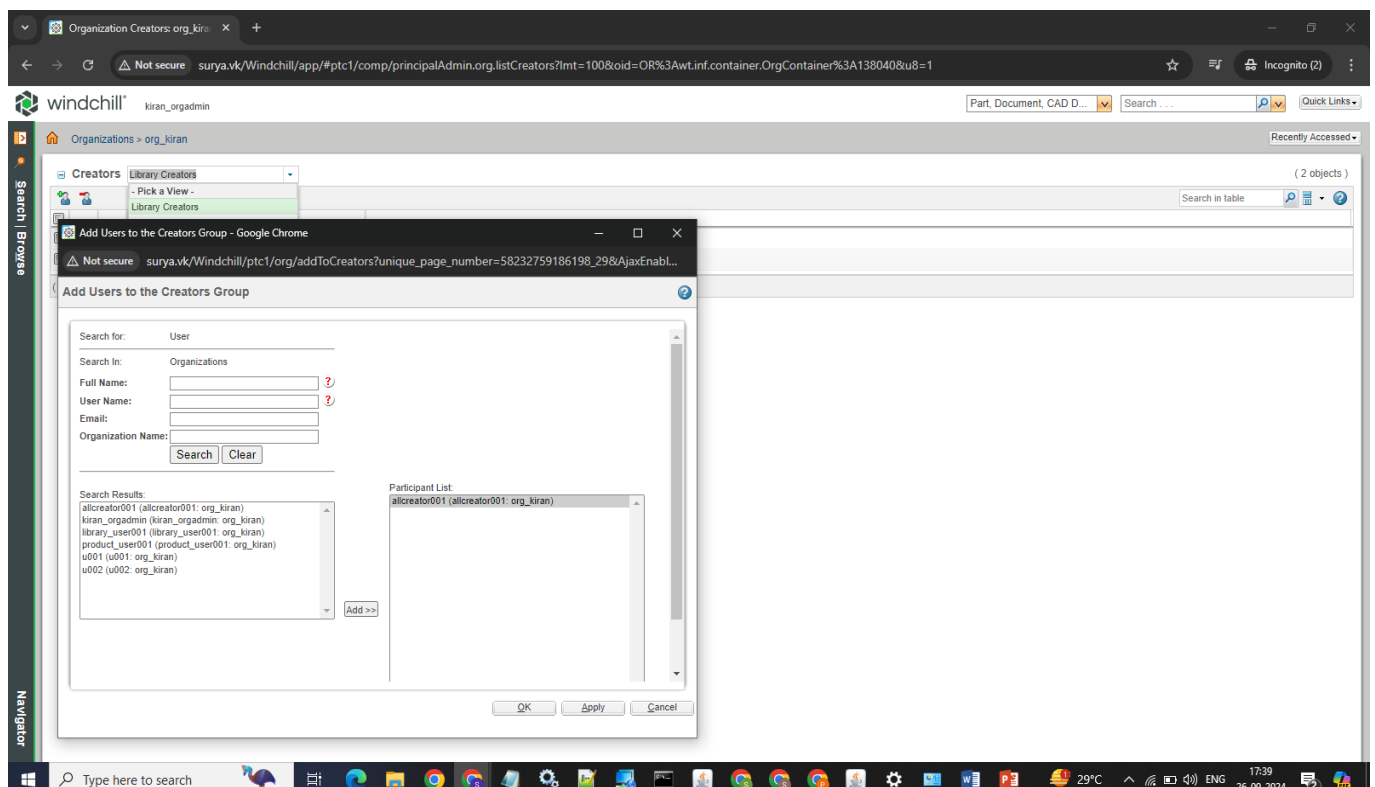

7. Make library_user001 as a library creator only, also add allcreator001 in library creator

Step1: select dropdown list (pick a view) and choose Library creators.

Step2: add user (2. library_user001) to creators Group->Apply

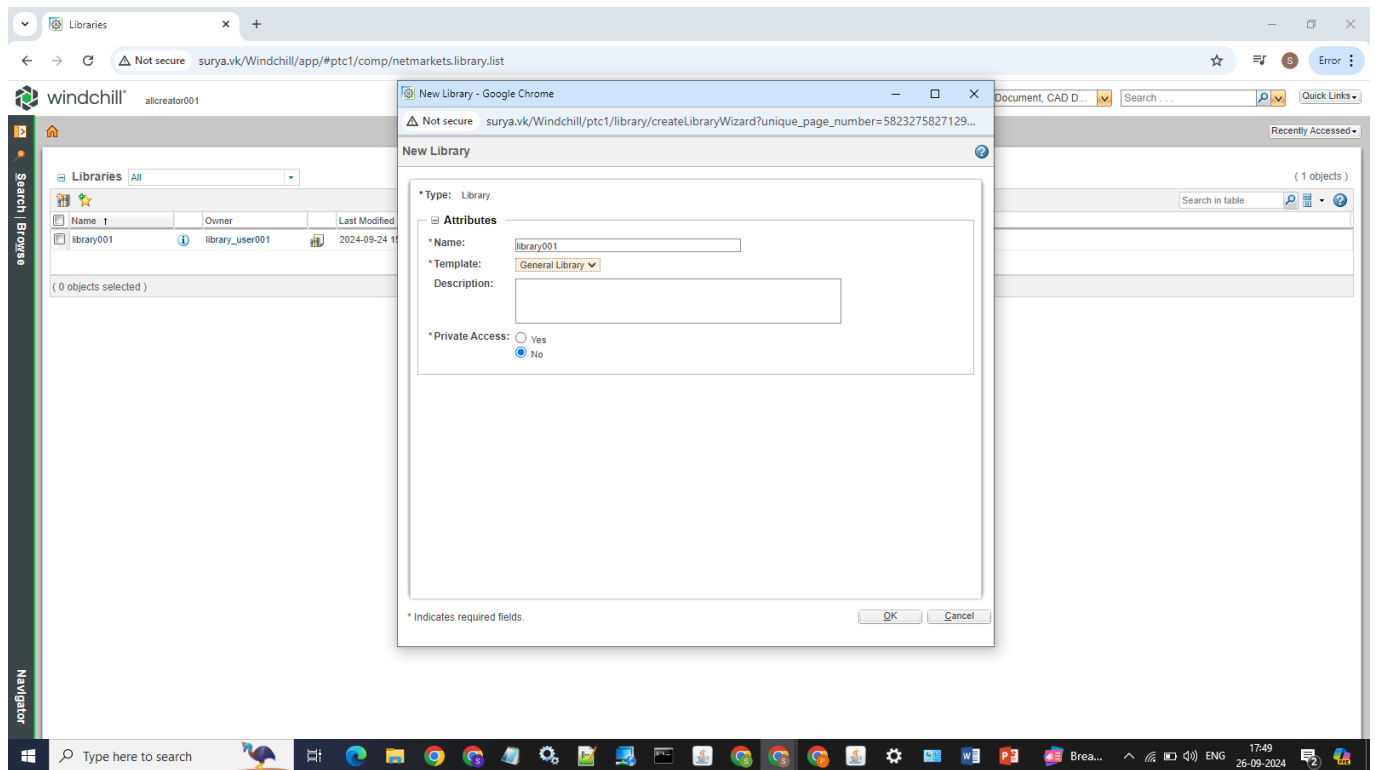

step3: Likewise add user (allcreator001) to the Library creator->Apply

8. Login with product_user001 and create a product --> product001

Step1: Login(localhost/Windchill) as user (Product_user001) with password.

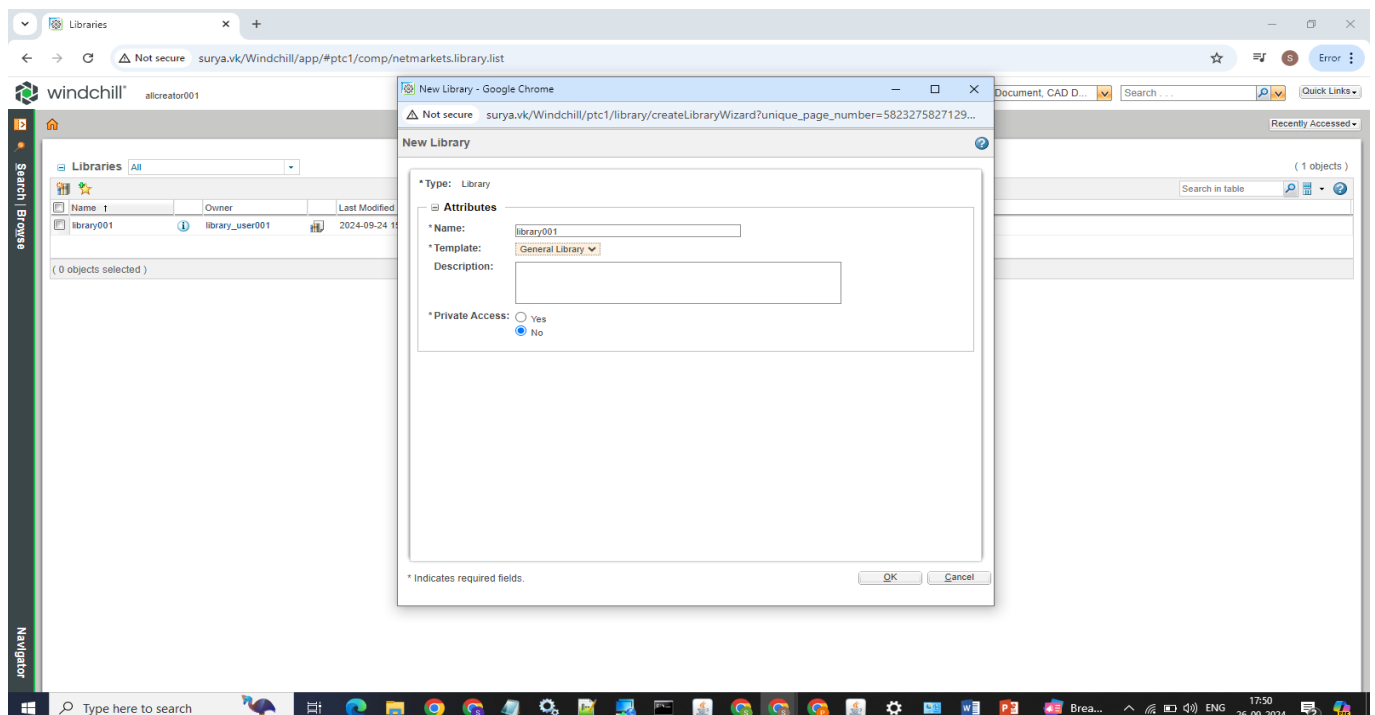

Step2: Add new product001 ->fill required fields->ok

9) Login with library_user001 and create a product --> library001

Step1: Login(localhost/Windchill) as user(library_user001) with password. Step2: Add new

library001 ->fill required fields->ok

10) Create two more users (u001, u002)

Step1: select organization(icon)->choose organization (org_kiran) -> go to utilities-> Business Administration->participant Administration.

Step 2: create new user(u001) and fill required fields -> Apply

The screenshot shows the Windchill Participant Administration interface. On the left, the 'Participant Administration' table lists users: product_user001, library_user001, allcreator001, u001, and u002. The 'New User' form is open, displaying the 'Attributes' tab. The form fields are as follows:

- *Name: u001
- *Full Name: u001
- *Last Name: u001
- Synchronize Name with LDAP: ☒
- Email: (empty)
- Postal Address: (empty)
- Telephone Number: (empty)
- Alternate Phone Number: (empty)
- Fax Number: (empty)
- Personal Web Site: (empty)
- Organization: org_kiran (Find...)
- *Preferred Language: English (United States)
- Directory Server: vk.Ldap
- Domain of User: org_kiran (Find...)
- Domain of Personal Cabinet: org_kiran (Find...)
- *Password: (masked)
- *Password Confirmation: (masked)
- Alternate User Name 1: (empty)
- Alternate User Name 2: (empty)
- Alternate User Name 3: (empty)

* Indicates required fields. Buttons at the bottom: Back, Next, Finish, Apply, Cancel.

Step3: create new user(u002) and fill required fields -> Apply

The screenshot shows the Windchill Participant Administration interface. On the left, the 'Participant Administration' table lists users: product_user001, library_user001, allcreator001, u001, and u002. The 'New User' form is open, displaying the 'Attributes' tab. The form fields are as follows:

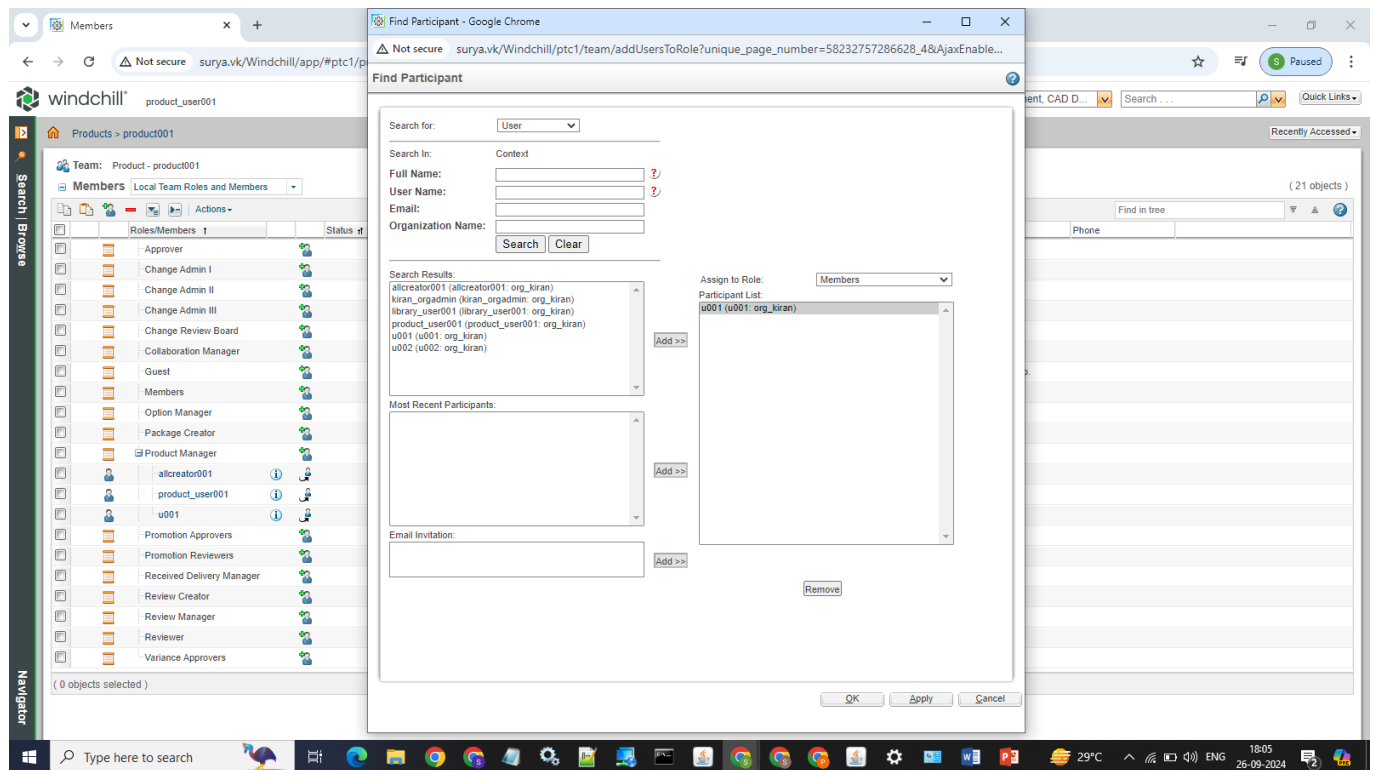

- *Name: u002
- *Full Name: u002
- *Last Name: u002
- Synchronize Name with LDAP: ☒
- Email: (empty)
- Postal Address: (empty)
- Telephone Number: (empty)
- Alternate Phone Number: (empty)
- Fax Number: (empty)
- Personal Web Site: (empty)
- Organization: org_kiran (Find...)
- *Preferred Language: English (United States)
- Directory Server: vk.Ldap
- Domain of User: org_kiran (Find...)
- Domain of Personal Cabinet: org_kiran (Find...)
- *Password: (masked)
- *Password Confirmation: (masked)
- Alternate User Name 1: (empty)
- Alternate User Name 2: (empty)
- Alternate User Name 3: (empty)

* Indicates required fields. Buttons at the bottom: Back, Next, Finish, Apply, Cancel.

11) make u001 as member of product001

Step1: login(localhost/Windchill) as user (product user001) with password.

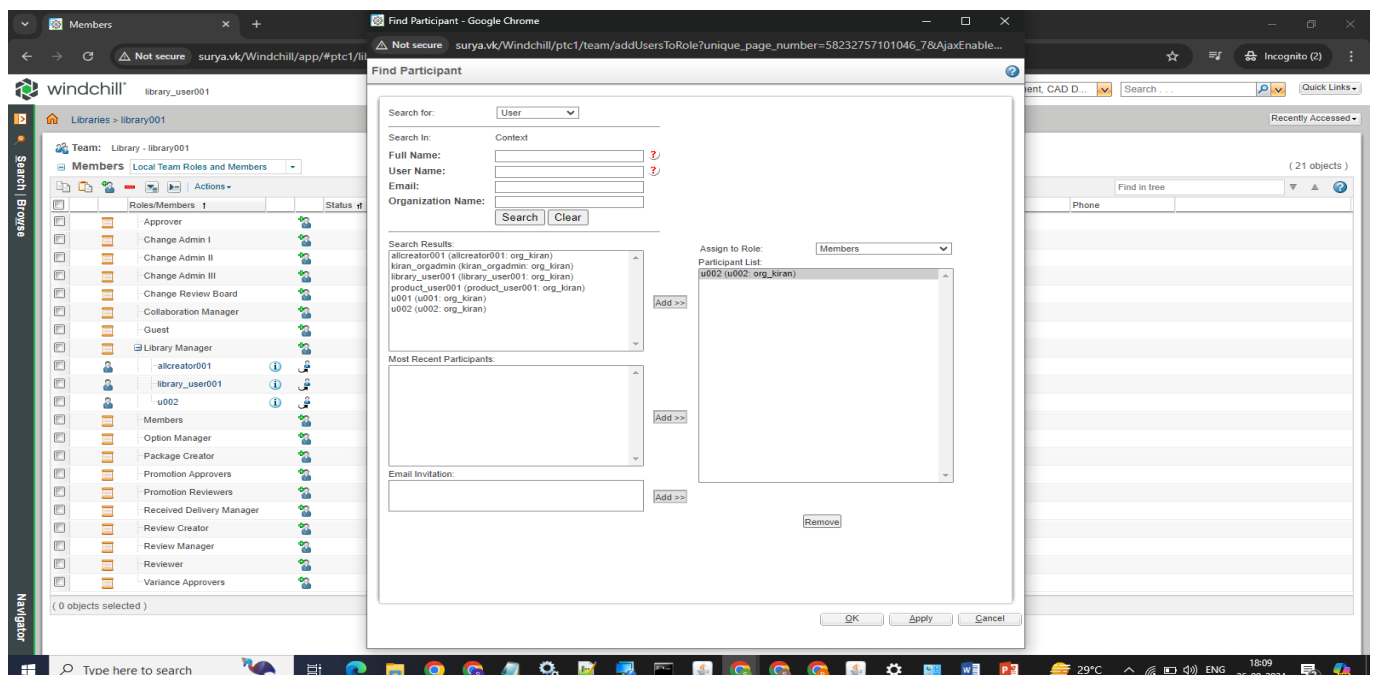

Step2: select Teams-> members (add user u001 as participant)->Apply

12) make u002 as member of library001

Step1: login(localhost/Windchill) as user (library_user001) with password.

Step2: select Teams-> members (add user u002 as participant)->Apply

13) Login as allcreator001 and ensure if he is able to create both prod and library.

Step1: login(localhost/Windchill) as user (allcreator001) with password.

Step2: observe the user (allcreator001) is able to create both product and library
